TO THE PUBLIC.

THE acknowledged Excellence of this Foundry, with its rapid Success, as well as its unexampled Productions, having gained universal Encomiums on its ingenious Improver and Perfeſter, (whose uncommon Genius transferred the Letter-Foundry Buſineſs from HOLLAND to ENGLAND, which, for above Sixty Years, has received, for its Beauty and Symmetry, the unbounded Praises of the Literati, and the liberal Encouragement of all the Master-printers and Booksellers, not only of this Country, but of all EUROPE and AMERICA,) has excited the Jealousy of the envious, and the Desires of the enterprising, to become Partakers of the Reward due to the Descendants of the Improver of this most useful and important Art.

They endeavour by every Method to withdraw, from this Foundry, that which they silently acknowledge is its indisputable Right: Which is conspicuous by their very Address to the Public, wherein they promise (in Order to induce Attention and Encouragement) that they will use their utmost Endeavours to IMITATE the Productions of this Foundry: Which Assertion, on Inspection, will be found to be impracticable, as the Imperfections cannot correspond in Size.

The Proprietor of this Foundry, ever desirous of retaining the decisive Superiority in his Favour, and full of the sincerest Gratitude for the distinguished Honour, by every Work of Reputation being printed from the elegant Types of the Chiswell-street Manufactory, hopes, by every Improvement, to retain and merit a Continuance of their established Approbation, which, in all Quarters of the Globe, has given it so acknowledged an Ascendency over that of his Opponents.

1. The first part of the paper is devoted to a general
2. consideration of the subject, and to a statement of the
3. objects of the present inquiry. It is then shown that the
4. objects of the present inquiry are, first, to determine the
5. nature and extent of the problem, and second, to determine
6. the principles which govern the solution of the problem.
7. The second part of the paper is devoted to a detailed
8. examination of the problem, and to a statement of the
9. principles which govern the solution of the problem. It is
10. then shown that the objects of the present inquiry are, first,
11. to determine the nature and extent of the problem, and
12. second, to determine the principles which govern the solution
13. of the problem.

14. The third part of the paper is devoted to a detailed
15. examination of the problem, and to a statement of the
16. principles which govern the solution of the problem. It is
17. then shown that the objects of the present inquiry are, first,
18. to determine the nature and extent of the problem, and
19. second, to determine the principles which govern the solution
20. of the problem.
